

Dear SECRETO Investigators,

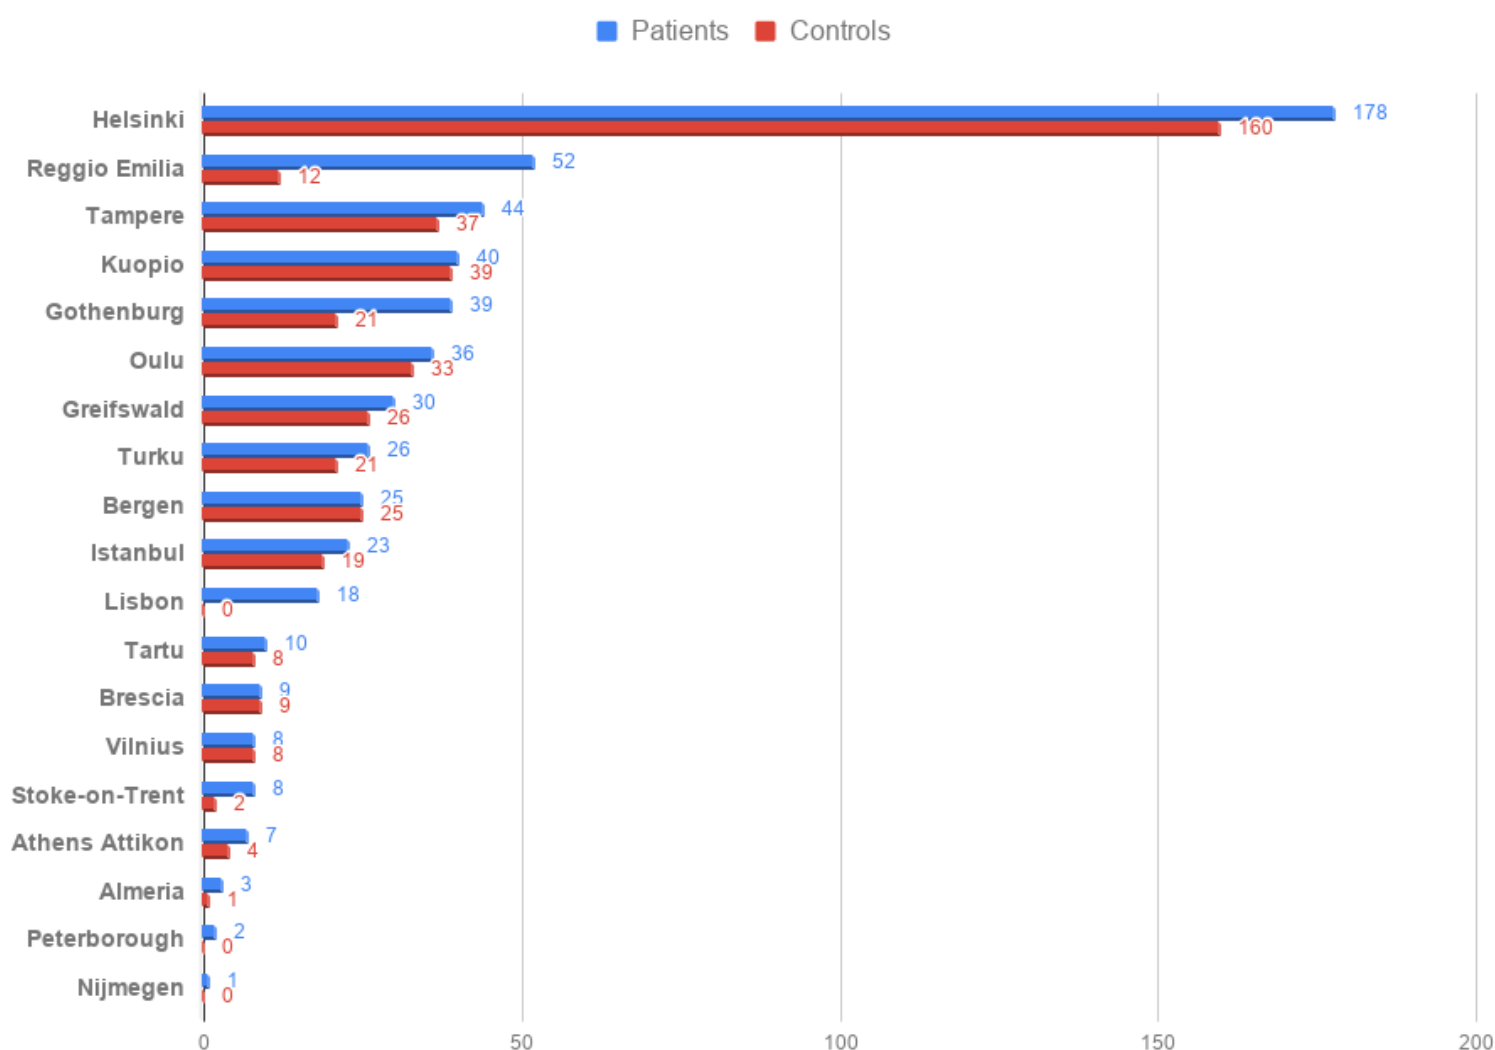

Below please find a recap of recruitment by center and ratio of cases : controls as of 01 May 2021. Despite tough times with the pandemic during the previous months we have done amazing progress on the final lap of patient recruitment. There are now 559 (93.2%) patients and 425 (70.8%) controls in the database. The next step is to take the final spurt with the patients and begin to search controls for the remaining cases.

We need contribution from all of you to make this study possible!

Best regards,

Jukka
