

Dear SECRETO Collaborators,

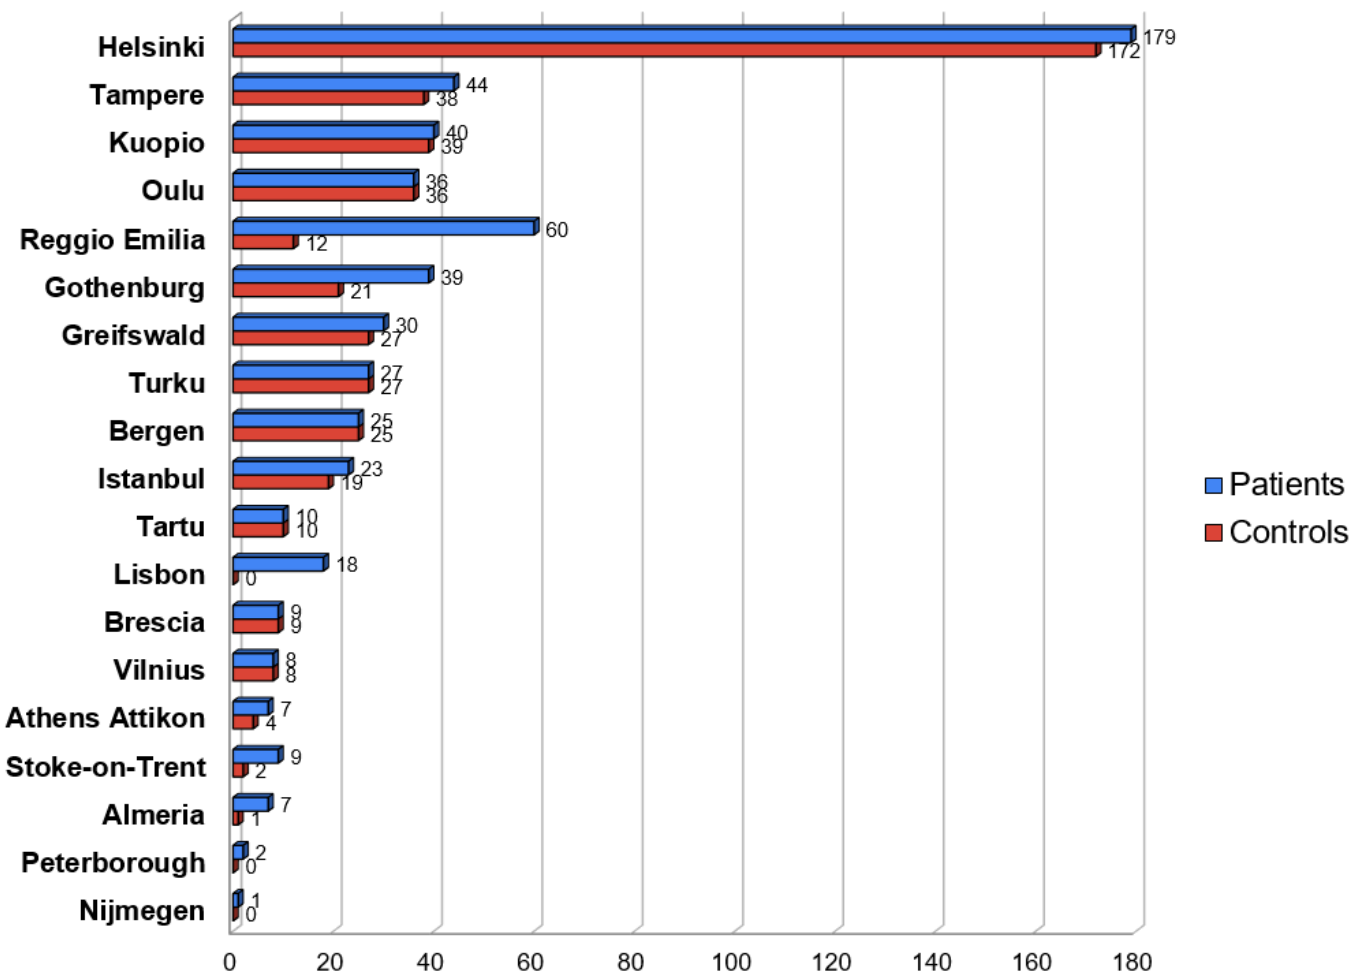

Delightfully, a few new patients were recruited also in July! Special thanks go to Marialuisa Zedde's team in Reggio Emilia and Patricia Martínez-Sánchez's team in Almeria.

A total of 574 patients (95.7% of the target) and 450 controls (75.0% of the target) have now been recruited. Only 26 patients are missing from our goal - not much per center.

A relaxing holiday for those whose holiday is still going ahead. Others, let's keep up the good work to get across the finish line!
