

Only a few patients are missing from our goal! Is it possible for us to reach our patient recruitment goal by mid-November?

We have started cleaning up the OpenClinica database, so be prepared to receive queries. Our goal is to clean the patient data by the end of the year, so kindly start exporting any missing data to OpenClinica and respond to queries as soon as possible, and at the latest upon receipt of the notification. We will likely also contact you via email in the process of cleaning data.

Simultaneously, we hope that centers will focus on recruiting the missing controls and keep follow-up of patients up to date.

There is strength in unity!

Recap of recruitment by center, September 2021
