

Dear SECRET O Collaborators,

There has been a change in the staff at the Secret O Coordinating Center. Our long term research coordinator Laura-Leena Kupari spent her last working day in Helsinki last week. Her work will be continued by study coordinator Jaana Koski, who has been working in our study group earlier for several years. Jaana can be reached at [jaana.koski\(at\)hus.fi](mailto:jaana.koski@hus.fi).

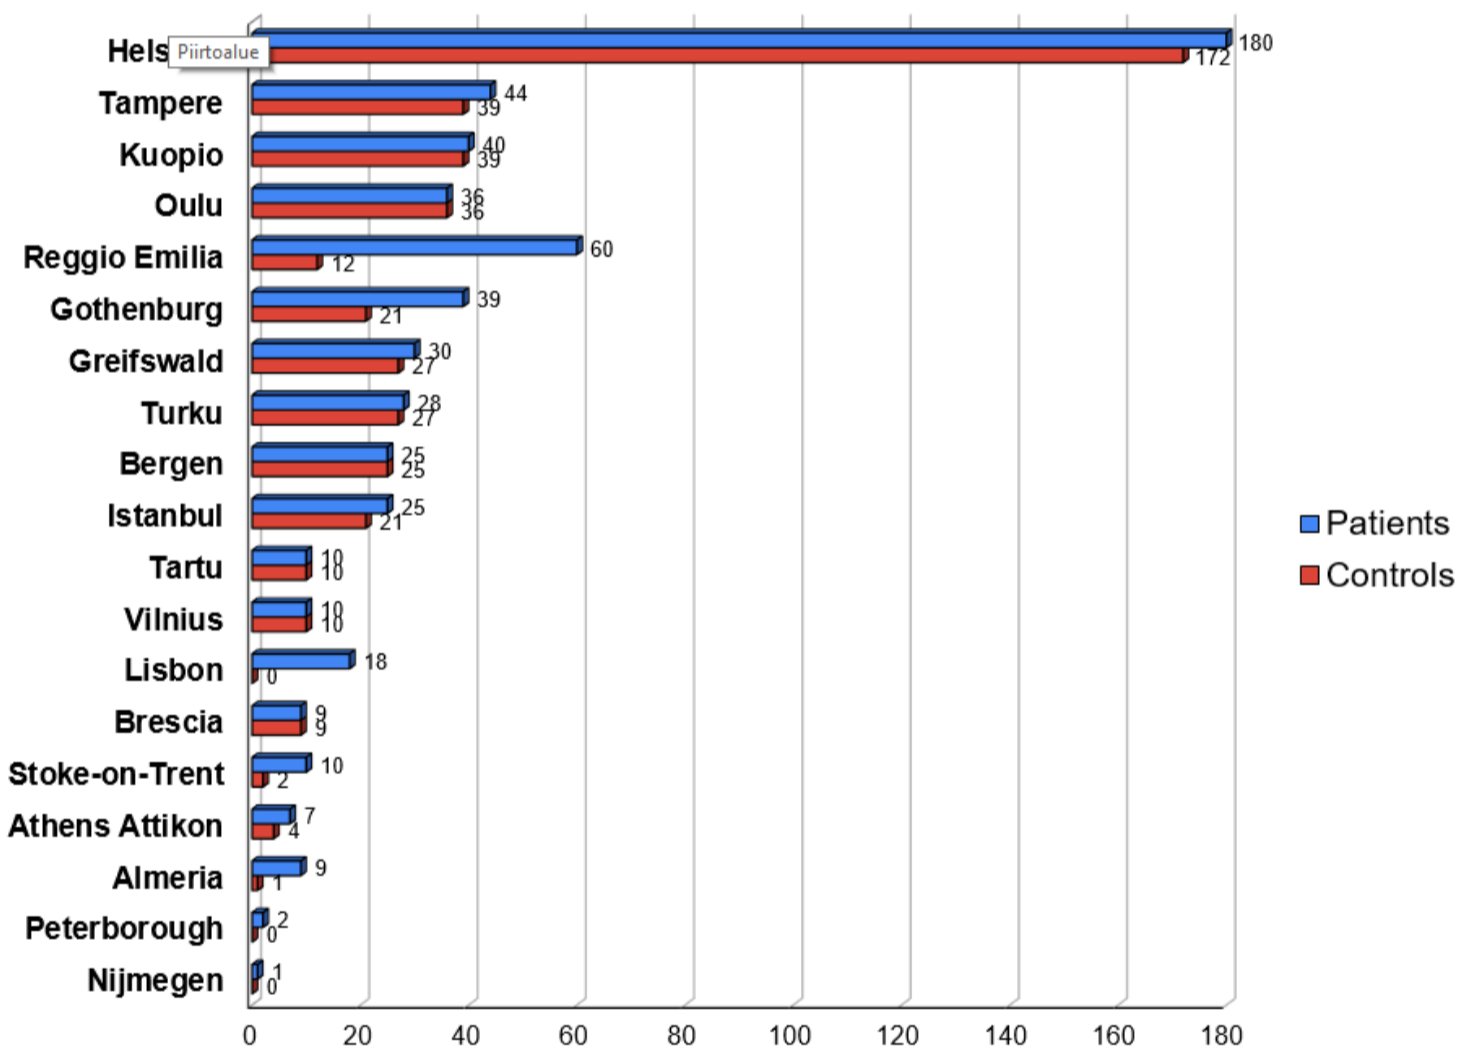

Warm thanks to Laura-Leena and welcome Jaana!

By the end of August, a total of 582 patients and 455 controls have been enrolled, so we are very close to the finish line with patients. Below please find the most recent recaps of recruitment by site and patient:control ratio.

In addition to active recruitment, be sure to maintain patient follow-up up to date and send neuroimaging and echo studies in a timely manner to core laboratories for rating.

Recap of recruitment by center (August 2021)

Controls : patients ratio by center (August 2021)
